MacDermid's team of product experts leveraged their expertise in engineering dot shape to develop LUX® In-the-Plate™, a game changing technology.

LUX® In-The-Plate™ technology is available exclusively from MacDermid and provides all the benefits of LUX® Lamination but with the convenience of flat-top dots right out of the box. No additional platemaking steps or equipment are needed to take advantage of the print quality and consistency that LUX® flat-top dots provide.

When you want to take your flexo print to the next level, count on the company that innovates with you in mind.
